Okaloosa County Saltwater Beach Monitoring Results For March 4, 2013

The Florida Department of Health in Okaloosa County conducts weekly saltwater beach water quality monitoring at 13 sites through the Healthy Beaches Monitoring Program. The water samples are analyzed for enteric bacteria (enterococci) that normally inhabit the intestinal tract of humans and animals and which may cause human disease, infections, or rashes. The presence of enteric bacteria is an indication of fecal pollution, which may come from stormwater runoff, pets and wildlife, and human sewage.

Site	Name	City	Enterococci	Water Quality
SP-1	Liza Jackson Park	Ft. Walton Beach	Pass	Good
SP-2	Garniers Park	Ft. Walton Beach	Pass	Moderate
SP-3	Marler Park	Okaloosa Island	Pass	Moderate
SP-4	Wayside Park	Okaloosa Island	Pass	Good
SP-5	Poquito Park	Shalimar	Pass	Moderate
SP-6	Gulf Islands National Seashore	Okaloosa Island	Pass	Good
SP-7	East Pass	Okaloosa Island	Pass	Good
SP-8	Lincoln Park	Valparaiso	Pass	Good
SP-9	Henderson Beach	Destin	Pass	Good
SP-10	Fred Gannon Rocky Bayou State Park	Niceville	Pass	Moderate
SP-11	James Lee Park	Destin	Pass	Good
SP-13	Emerald Promenade	Okaloosa Island	Pass	Good
SP-14	Clement E Taylor Park	Destin	Pass	Moderate

Page 2/2

Water quality classifications are based upon the United States Environmental Protection Agency's (EPA's) recommended standard for enterococci of greater than or equal to 104 colony forming units per 100 milliliters of marine water.

No advisories have been issued for this sampling period.
