OKALOOSA COUNTY SALTWATER BEACH MONITORING RESULTS for July 8, 2013

The Florida Department of Health in Okaloosa County conducts weekly saltwater beach water quality monitoring at 13 sites through the Healthy Beaches Monitoring Program. The water samples are analyzed for enteric bacteria (enterococci) that normally inhabit the intestinal tract of humans and animals and which may cause human disease, infections, or rashes. The presence of enteric bacteria is an indication of fecal pollution, which may come from stormwater runoff, pets and wildlife, and human sewage.

Site	Name	City	Enterococci	Water Quality
SP-1	Liza Jackson Park	Ft. Walton Beach	Pass	*Moderate
SP-2	Garniers Park	Ft. Walton Beach	Fail	Poor
SP-3	Marler Park	Okaloosa Island	Pass	*Moderate
SP-4	Wayside Park	Okaloosa Island	Pass	Moderate
SP-5	Poquito Park	Shalimar	Fail	Poor
SP-6	Gulf Islands National Seashore	Okaloosa Island	Pass	*Moderate
SP-7	East Pass	Okaloosa Island	Fail	Poor
SP-8	Lincoln Park	Valparaiso	Fail	Poor
SP-9	Henderson Beach	Destin	Pass	Good
SP-10	Fred Gannon Rocky Bayou State Park	Niceville	Fail	Poor
SP-11	James Lee Park	Destin	Pass	Good
SP-13	Emerald Promenade	Okaloosa Island	Pass	Good
SP-14	Clement E Taylor Park	Destin	Pass	*Moderate

Water quality classifications are based upon the United States Environmental Protection Agency's (EPA's) recommended standard for enterococci of greater than or equal to 104 colony forming units per 100 milliliters of marine water.

Advisories have been issued for **Garniers Park** of Fort Walton Beach; **Poquito Park** of Shalimar; **East Pass** of Destin; **Lincoln Park** of Valparaiso; and **Rocky Bayou State Park** of Niceville based on the enterococci standards recommended by the EPA. This should be considered a potential health risk to the bathing public.

***Please be advised that advisories issued due to recent sewer spills are still in effect. Liza Jackson Park in Fort Walton Beach, Marler Park on Okaloosa Island, and Lincoln Park in Valparaiso are under an advisory until further notice. Due to poor water quality at East Pass in Destin and the recent wastewater spill in Fort Walton Beach and in an abundance of caution, we are extending advisories to Gulf Islands National Seashore on Okaloosa Island and Clement E. Taylor Park in Destin until next week's testing. We are advising the public not to enter the water and/or use water or jet skis or boat in waters from Liza Jackson Park in Fort Walton Beach to Clement E. Taylor Park in Destin until samples shows that the waters are safe.**
