Tractor-Trailer Accident Closes Main Thoroughfare

Niceville – An overturned tractor crashed at the intersection of John Sims and Government street in Niceville Tuesday morning at about eight AM.

The driver of the truck was transported by EMS to the hospital.

The tractor trailer leaked about 150 gallons of diesel fuel onto the road as well, creating a safety hazard along the route, which will cause significant delays.

Okaloosa EMS and Emergency Management are on the scene and believe it will take until **at least** 10am to clear the road for traffic.

Please plan your trips accordingly.
